Long division with decimals

Explore and build the idea

20 daily questions include C1 and C2. Use separate paper when helpful.

Lesson focus: I can divide with decimals by preserving equal groups and checking my quotient.

R1. Red : blue is 3 : 5. How many blue tiles go with 6 red tiles?

R2. A snail moves 3 centimeters each minute. Find the distance after 0, 4, and 7 minutes.

R3. Find $\frac{3}{5} \div \frac{1}{5}$.

R4. Complete the ratio-table pair: (3, 4), (12, __).

P1. Use long division to find 672 ÷ 24.

P2. Find 27 ÷ 8. Continue into decimal places.

P3. Find 8.4 ÷ 7.

P4. Find 6.3 ÷ 0.09 by writing an equivalent division with a whole-number divisor.

Lesson model

dividend	divisor
4.8	0.06
480	6

Long division with decimals

Practice and compare methods

20 daily questions include C1 and C2. Use separate paper when helpful.

P5. Find $7 \div 20$.

P6. A 3.6-meter ribbon is cut into 0.4-meter pieces. How many pieces?

P7. Find $1{,}176 \div 28$ and check by multiplication.

F. Complete: $5.4 \div 0.03 =$ __ $\div 3 =$ __.

D. Lina changes $6.3 \div 0.09$ into $6.3 \div 9$ and gets 0.7. Which change is missing?

M1. A mix has 5 cups oats and 3 cups seeds. What fraction of the whole is seeds?

M2. Find 12% of $15.00.

M3. Find $2\frac{1}{2} \div \frac{3}{4}$.

Worked example - compare with the slide model

Find $4.8 \div 0.06$.

Rename both quantities in hundredths.

4.8 is 480 hundredths; 0.06 is 6 hundredths.

$480 \div 6 = 80$. Check $80 \times 0.06 = 4.8$.

Result: 80

Long division with decimals

Challenge, explain and check

20 daily questions include C1 and C2. Use separate paper when helpful.

C1. A 4.8-liter container fills bottles that hold 0.15 liter each. Bottles are packed 6 to a box. How many full boxes can be made, and how many filled bottles remain?

C2. A 7.35-meter roll of tape is cut into 0.35-meter strips. Nineteen strips are used. Find the original number of strips, the remaining length, and how many unused strips remain.

Finish the lesson

S. To keep a quotient unchanged, I multiply both ___ and ___ by the same number.

E. Find 8.4 ÷ 0.07. Write an equivalent division and check by multiplication.
